1
0.1
0.005
0

1 2 3 4

Average Euclidean distance
in fuctional hypervolume

(c)

Gini index of energy fluxes

0.9
0.6
0.3
0.0

1 2 3 4

Average Euclidean distance
in fuctional hypervolume

(d)

Total energy flow (log J.y^{-1})

1000
100
10
1
0

10^{-4} 0.002 0.05

Proportion of overall functional
hull covered by food web

(e)

Energy flow to
predators (log J.y^{-1})

1000
150
10
