0.02
0.05
Mean Euclidean distance between consumers in CN plane
(b)
Energy flow to predators (log J.y^{-1})
0.001
Mean Euclidean distance between consumers in CN plane
(c)
Total energy flow (log J.y^{-1})
Mean Euclidean distance between consumers in CNP space
(d)
Energy flow to predators (log J.y^{-1})
Mean Euclidean distance between consumers in CNP space
